Web Development & Technical	HTML5, CSS3, Responsive Web Design, Static Site Deployment (GitHub Pages), SEO Schema Markup, Technical Documentation
Remote Tools	Zoom, Slack, Microsoft Teams, Google Workspace
Soft Skills	Time management, self-discipline, data entry, working across UK/EU time zones

PORTFOLIO & PROJECTS

Voltguard Electrical — Full Business Website & Collateral 2026

Live demo: caldeny4201.github.io/voltguard | Code: github.com/caldeny4201/caldeny4201.github.io/tree/main/voltguard

- Designed and deployed a 5-page, mobile-responsive website for a South African electrical contractor.
- Implemented dynamic pricing tables, WhatsApp booking integration, and local SEO schema markup.
- Authored and integrated 8 PDF documents into the site structure (brochures, quote, spec sheet).

LexPilot — Invoicing Prototype 2026

Code: github.com/caldeny4201/caldeny4201.github.io/tree/main/lexpilot

- Built a front-end billing/invoicing prototype using HTML, CSS, and JavaScript.

Fathom — Computer Science Learning Platform 2026

Code: github.com/caldeny4201/caldeny4201.github.io/tree/main/fathom

- Developed a static site generator structure for a CS educational platform, organizing 70+ topics across 9 South African universities.
